

TechNova Pvt. Ltd. — Onboarding Guide

Fictional project knowledge source for the TechNova Office Assistant.

1. First Day

New employees should complete HR onboarding, receive their employee identity details, and review the Employee Handbook and required policies.

2. IT Setup

IT provides approved accounts and assigned equipment according to the employee's role. Employees should complete required security and access setup.

3. Manager Introduction

The reporting manager introduces the employee to the team, responsibilities, communication channels, and initial goals.

4. Required Training

New employees may be required to complete security, compliance, and role-specific training during onboarding.

5. Support

Questions about HR processes should be directed to HR, while technical access issues should be raised with IT through the approved support channel.
